Overall Length:

10.000 inches

Overall Height:

3.000 inches

Overall Width:

8.000 inches

End Application:

E-4a, -4b aerospace ground support equipment

Test Item Connection Method:

Jack

Product Name:

Landing control and logic unit (lclu) test point box

Functional Classification:

Aa-12.11

Special Features:

31 black jacks, 32 red jacks

Reference Data And Literature:

To 33d-1-111

Fsc Application Data:

Test set, control, specially designed, acft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
