**End Application:**

Nose wheel steering actuator series omp3863

**Nominallength:**

2.500 inches

**Nominaldiameter:**

1.725 inches

**Special Features:**

Material-aluminum; has one hole 1.600 in. Diameter by 1.250 in. Deep one end; original name-stator seal tool

**Functional Description:**

Used to hold in place and prevent damage to stator seals during installation of vane rotor shaft into actuator housing

**Reference Data And Literature:**

To 9h2-3-84-3

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
