End Application:

Nose wheel steering actuator series omp3863

Nominallength:

2.500 inches

Nominaldiameter:

1.725 inches

Special Features:

Material-aluminum; has one hole 1.600 in. Diameter by 1.250 in. Deep one end; original name-stator seal tool

Functional Description:

Used to hold in place and prevent damage to stator seals during installation of vane rotor shaft into actuator housing

Reference Data And Literature:

To 9h2-3-84-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
