End Application:

Nose wheel steering actuator series omp3863

Special Features:

Aluminum; 3.500 in. L, 3.000 in. W, 1.000 in. Thick; to name: fixture, holding

Functional Description:

Used to provide ports to the actuator using a mounting method which the valve housing assembly uses. Used to check side to side motion, determine leakage characteristics and check characteristics of the actuator compensator

Reference Data And Literature:

To 9h2-3-84-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
