**End Application:**

F-15 acft

**Nominallength:**

4.500 inches

**Nominaldiameter:**

6.000 inches

**Special Features:**

Steel; company name-fixture, test, decoupler

**Functional Description:**

Used to perform leak check and piston operational tests on a completed decoupler assembly prior to final assembly in the unit; (central gear box)

**Unpackaged Unit Weight:**

5.250 pounds

**Reference Data And Literature:**

Serd no. 1581

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
