End Application:

J-57 jet engine

Test Type For Which Designed:

Anti icing valves

Engine Model Tested:

J57 engine

Special Features:

To name: anti-icing air regulator valve and operating valve test stand; consists of pneumatic and electrical system; 68in w, 70in h, 43in d, 2000lbs

Functional Description:

Used to test anti icing air regulator valves on pwa-j-57 jet engines and their associated valves

Reference Data And Literature:

To 33d4-6-141-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-d
