**End Application:**

F-15 acft

**Nominallength:**

6.000 inches

**Nominaldiameter:**

4.375 inches

**Special Features:**

Company item name-holder, shaft bearing removal

**Functional Description:**

Used during maintenance of central gearbox to support the clutch shaft subassembly to simultaneously remove the bearing carrier, bearings and spacer from the shaft

**Unpackaged Unit Weight:**

3.000 pounds

**Reference Data And Literature:**

Serd no. 1526

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
