End Application:

F100-pw-100/200/220/229 aircraft engine

Nominal length:

9.000 inches

Nominal width:

5.000 inches

Nominal height:

7.000 inches

Special Features:

Company item name-bracket, turbine exhaust

Functional Description:

Used during turbine exhaust repair

Reference Data And Literature:

Serd no. 1293

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
