End Application:

Multi-aircraft systems age

Drive Type:

Electric motor

Power Source:

Electric motor

Accumulator:

Not included

Engine Driven Hydraulic Pump Testing Design Feature:

Not included

Functional Classification:

Gg-5.3

Functional Description:

Used to bleed air, drain, flush and refill the aircraft system with micronically filtered hydraulic fluid

Reference Data And Literature:

T.O.33a2-2-23-31

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T361-e
