**End Application:**

Multi-aircraft systems age

**Drive Type:**

Electric motor

**Power Source:**

Electric motor

**Accumulator:**

Not included

**Engine Driven Hydraulic Pump Testing Design Feature:**

Not included

**Functional Classification:**

Gg-5.3

**Functional Description:**

Used to bleed air, drain, flush and refill the aircraft system with micronically filtered hydraulic fluid

**Reference Data And Literature:**

T.O.33a2-2-23-31

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

T361-e
