End Application:

J69-t-25a turbojet engine

Nominaldiameter:

18.000 inches

Special Features:

To name: pedestal

Functional Description:

Supports shaft assembly in vertical position to assemble and disassemble rotor machining assembly

Reference Data And Literature:

To 2j-j69-74

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
