End Application:

F-15 acft

Nominallength:

2.000 inches

Nominaldiameter:

5.600 inches

Special Features:

Company name-fixture pressure test

Functional Description:

Used to perform proof pressure tests on the emergency generator. Provides a means to seal the generator/hydraulic motor interface with provisions for application of test pressure

Unpackaged Unit Weight:

4.000 pounds

Reference Data And Literature:

Serd no. 1808

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
