Functional Classification (non-core):

Aa-9.3

Special Features:

120.0vac, 60.0 and 400.0hz, single phase

Functional Description (non-core):

Used to display on a crt voltage patterns of both high and low tension ignition systems and of vibration pickup systems on reciprocating engines

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A528p0
