End Application:

F-15 acft

Unpackaged Unit Weight:

50.000 pounds

Functional Description:

Used during functional testing of the fuel system components, to simulate fuel tank volumes and enviromental pressures, when used in conjunction with a vaccum pump

Reference Data And Literature:

Serd no. 1814

General Description:

Steel, approx 18 gal. Cap., 0.65 psia operating pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
