End Application:

AF15-AC-FTH-YDRA

Nominalheight:

0.500 inches

Nominaldiameter:

6.000 inches

Special Features:

Company name-mount, adapter plate

Functional Description:

Used to adapt the jfs hydraulic start motor to the hydraulic test stand drive pad and to provide the required axial and radial alignment

Unpackaged Unit Weight:

1.375 pounds

Reference Data And Literature:

Serd no. 2067; to 9h10-3-53-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
