Overall Length:

9.500 inches

Cross-sectional Width:

5.500 inches

End Application:

Hydraulic system filter assembly 11-10617-2

Product Name:

Test block, differential pressure indicator (age)

Special Features:

C/o plate, identifying, case, base, plate, contents, block, case assembly

Functional Description:

Used to test the differential pressure indicator

Reference Data And Literature:

To 9h3-3-79-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537h0
