End Application:

Aircraft altitude reporting altitude computer series 31103

Special Features:

Test set, microsyn; 11 in w; 10 in d; 12 in h; used to test microsyn assembly when installed in sensor assembly which is part of cpu-66/a altitude reporting altitude computer for null voltage and phasing; c/o ac voltmeter m1; potentiometer r1

Reference Data And Literature:

To 5f5-4-18-4; navair 05-20gca-6

Supplementary Features:

Microsyn test stand

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T228-a
