Nominal length:

59.000 inches

Nominal width:

15.000 inches

Nominal height:

14.500 inches

Special Features:

To name: functional test fixture

Functional Description:

Mounts and restrains aircraft elevator hydraulic power control s during functional testing of actuators

Unpackaged Unit Weight:

445.000 pounds

Reference Data And Literature:

To 33d3-25-32-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
