End Application:

J100-ca-100, j69 series engines; a/m37t-6test stand

Product Name:

Engine control kit

Special Features:

Engine control box -p/n t610041-3, oil tank 8.25x8.25x15.62 inches high-capaci type 10 qt electrical harnesses and cables, various hoses, tubes, and fittings one box contains the electrical and pneumatic equipment while the second box contains the hydraulic equipment

Functional Description:

Adapts the j100-ca-100 and the j69 series of turbojet drone engines to the a/m37t-6 test stand for post-maintenance testing

Reference Data And Literature:

T.O.33d4-6-468-1

Supplementary Features:

Power input to engine control box 28vdc power output to throttle actuator 28vdc, 1 amp slo-blo internal fuse

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
