End Application:

Hydraulics and pneumatics systems, f-15 acft

Nominallength:

8.000 inches

Product Name:

Fixture assembly, end cap preload torquing

Nominalwidth:

8.000 inches

Nominalheight:

10.000 inches

Functional Description:

Used to hold the aileron actuator and provides a means of applying torque to the end cap retainer

Unpackaged Unit Weight:

100.000 pounds

Reference Data And Literature:

Serd no. 05411 to 9h2-4-234-3 1f-15a-4-6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
