Aircraft Maintenance Fixture - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4920-00-477-3458

End Application:
Hydraulics and pneumatics systems, f-15 acft
Nominallength:
8.000 inches
Product Name:
Fixture assembly, end cap preload torquing
Nominalwidth:
8.000 inches
Nominalheight:
10.000 inches
Functional Description:
Used to hold the aileron actuator and provides a mens of applying torque to the end cap retainer
Unpackaged Unit Weight:
100.000 pounds
Reference Data And Literature:
Serd no. 0541l to 9h2-4-234-3 1f-15a-4-6
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A505c0
