End Application:

F100-pw0100/200/220/229 aircraft engine

Nominal length:

5.000 inches

Nominal width:

2.500 inches

Nominal height:

0.870 inches

Special Features:

Material: aluminum

Functional Description:

Used to connect the oil filter to the test stand

Reference Data And Literature:

Serd no. 1652

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
