Overall Length:

2.917 feet

Overall Height:

2.750 feet

Overall Width:

2.250 feet

Assembly Form:

Rigid

End Application:

T56 turboprop engine

Work Holding Device Position Adjustability:

Nonadjustable

Special Features:

Designed for turbine rotor transportation and turnover

Reference Data And Literature:

To 2j-t56-24; navair 02b-5da-504

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T361-c
