Current Type:

Ac

Usage Design:

Individual hydraulic units

Installation Design:

Fixed

Horsepower Rating:

10.0

Power Source:

Electric motor

Product Name:

Hub pressure test stand

Voltage In Volts:

220.0 and 440.0

Phase:

Three

Functional Classification:

Aa-9.1

Special Features:

All welded steel construction; incorporates an integral oil reservoir and power unit mounted inside the stand cabinet, a storage compartment for adapters and the hub mounting pad and control panel located on the external top of the stand; height 34 inches, width 53.75 inches, length 52.75 inches; weight 1900 lbs; motor speed 1150 rpm; pump capacity 2 gallons/minute; pump output 5000 psi; stand oil capacity 45 gallons; includes stainless steel work pan for collecting and draining oil from the hub

Frequency In Hertz:

60.0

Functional Description:

Designed to test the hubs for propeller models a322f-a1, a422-e1, a542-a, -b and -d series, a642-g series and others; adapters are available for use in testing the various propeller hubs

Entry Date:

80-08-05

Reference Data And Literature:

T.O. 33d2-11-30-11

Relationship To Similar Equipment:

Similar to nsn 4920003009921

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:
