Overall Length:
15.333 inches
Overall Height:
7.250 inches
Overall Width:
12.250 inches
Functional Description:
Adjusts totalizing circuit
Reference Data And Literature:
33d2-6-72-1, -4
General Description:
Includes 10 coaxial cable assemblies, 10 400 cycle lead assemblies; 1 dessicator assembly
Fsc Application Data:
Capacitor fuel gage systems
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
