Functional Classification:

Aa-8.13

Functional Description:

Checks tracking of 2 variable resistors in accelerometer by comparing their output

Entry Date:

70-04-01

Reference Data And Literature:

T.O.33d3-4-77-41

Relationship To Similar Equipment:

SIMI-LA-RTO-UG48

General Description:

Input power 115vac; 400 hz; power consumption 11 amps (35 amps starting); output acceleration range 0j to 6g positive and 0j to 5g negative; o/a dim. 30.125 in lg., 16.750 in. W., 13.375 in ht.; wt-100 lbs

Type/model Designation:

Ug484a2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
