Overall Length:

19.125 inches

Overall Height:

14.625 inches

Overall Width:

15.625 inches

End Application:

F-104 and a-10a aircraft age.

Functional Classification:

Aa-9.2

Functional Description:

Functionally test attitude indicator systems, it will utilize power derived from the aircraft

Reference Data And Literature:

Lear siegler p/n lt-3469b ntrda70-04-01

Relationship To Similar Equipment:

Similer to lt-3469b

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
