End Application:

Fuel/oil heat exchanger

Product Name:

Hex flow thermovalve stand assembly

Functional Description:

Provides oil at the temperatures, pressure and flow required to test both adg/idg and fuel thermostatic valves; accomplish pressure drop tests

Reference Data And Literature:

To 7j1-79-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
