End Application:

Aircraft propeller controls

Nominallength:

3.750 inches

Nominalheight:

1.680 inches

Special Features:

Fixture, sump relief valve

Functional Description:

Used to test the sump relief valve

Reference Data And Literature:

To 3ha2-7-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
