End Application:

Aircraft propeller controls

Nominalwidth:

4.000 inches

Nominalheight:

11.630 inches

Special Features:

Fixture, oil level indicator

Functional Description:

Used to test the oil level indicator

Reference Data And Literature:

To 3ha2-7-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
