End Application:

Aircraft propeller controls

Nominallength:

16.680 inches

Nominalheight:

16.120 inches

Special Features:

Fixture, aux motor test

Functional Description:

Used to test auxiliary motor with gs1400 test stand

Reference Data And Literature:

To 3ha2-7-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
