Overall Length:

16.000 inches

Overall Height:

11.000 inches

Overall Width:

9.000 inches

End Application:

Aircraft propeller controls

Product Name:

Test set, speed bias servo

Functional Description:

Speed bias servo assembly testing; used on 54h60 prppeller repair

Reference Data And Literature:

To 3ha2-7-3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
