End Application:

F-15, b-52 acft

Product Name:

Test stand, inlet valve

Special Features:

Equipped with 2 pressure gages and a flowmeter; self contained, requiring no extra equipment other than a 300 to 3000 psi gaseous oxygen supply conforming to bb-o-925 type 1 grade a; dimensions 18 inches wide by 25 inches deep by 28 inches high; weight 55 lbs; 2 pressure gages, 3.5 dial faces, ranges 0-60 psi and 0-600 psi; flowmeter tube length 10 inches; range 9 to 110 lpm

Functional Description:

Used to test the inlet valve of the bendix type 2894-xxx oxygen regulator and similar inlet valves

Entry Date:

70-04-01

Reference Data And Literature:

T.O. 33d2-10-24-1

Supplementary Features:

Co. Name-test stand inlet valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
