**Special Features:**

Test set, boresight/5 3/16 in h; 5 9/16 in d; 5 in w; c/o telescope, boresight clamp, carrying case; telescope is a 3 power 90 degrees elbow instrument prefocused at 1000in. Attached through a pivoting arrangement which allows a total azimuth adjustment of 30 degrees to a vane wedge adapter

**Functional Description:**

Boresighting self-powered relative wind transducers

**Relationship To Similar Equipment:**

Boresight test set, type ts 526, sm/i p/n 810197 is similar except that the total azimuth adjustment is 10 deg

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T228-a
