Overall Length:

37.000 inches

Overall Height:

22.000 inches

Overall Width:

37.000 inches

Functional Classification:

Aa-9.1

Functional Description:

To test and calibrate static transducer assemblies and aau-19a/a servoed altimeters

Entry Date:

71-12-01

Reference Data And Literature:

T.O. 33d7-3-133-1/navair

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
