Special Features:

Inlet pressure 2000 psi ; inlet and outlet operating pressure 60 psi; flow rate 150 lpm ; includes one 3000 psi pressure gage, 2 300 psi pressure gages, 1 rotameter p/n model10a1735, 1 regulator p/n gd61d-r-250 and loader valve p/n lv-10

Functional Description:

Designed to check the pressure and flow efficiency of the oxygen shutoff valve

Reference Data And Literature:

T.O. 33d2-10-27-4

Supplementary Features:

Company item name-test stand oxygen valve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-f
