**Nominal length:**

23.000 inches

**Product Name:**

Alignment fixture, tailpipe

**Nominal width:**

20.000 inches

**Nominal height:**

5.000 inches

**Special Features:**

Aluminum, anodized finish; portable; 20lbs

**Functional Description:**

Used to verify proper alignment of the target engine tailpipe nozzle exit with respect to the fuselage centerline within tolerance of 0.030in radius

**Reference Data And Literature:**

To 35d-1-292; navair 17-1-118

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
