Current Type:

Ac

Installation Design:

Portable

Pressure Rating:

Between 0.0 pounds per square inch and 300.0 pounds per square inch

Voltage In Volts:

115.0

Phase:

Single

Functional Classification:

Bb-3.4

Special Features:

C/o air temp control system; air pressure control system; thermostat test chamber; misc controls and instruments; 82.000 in l, 67.000 in w, 46.000 in h; 965.0 pounds

Frequency In Hertz:

60.0

Functional Description:

Used in testing pneumatic thermostats

Reference Data And Literature:

T.O.33d2-12-18-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-e
