End Application:

F-4 acft

Product Name:

Aircraft alignment datum assembly

Special Features:

21.5 in h x 6.375 w x 10.75 l; 15lbs

Functional Description:

Provides reference plans for aligning the inertial navigation system and angle of attack airstream detection probe in pitch & roll; provides reference to set up 1000in target board for aligning airborne missile control system antenna and lead computing optical sight system to the ins

Reference Data And Literature:

To 33-1-141

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A505c0
