End Application:
F-15 acft
Nominallength:
6.060 inches
Nominalwidth:
2.250 inches
Special Features:
Company name-fixture, alignment
Functional Description:
Used during overhaul of the afcs rate sensor gyros when the gyro is aligned to the electrical null
Unpackaged Unit Weight:
2.000 pounds
Reference Data And Literature:
Serd no. 1539
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A505c0
