Nominal length:

18.000 inches

Nominal width:

17.000 inches

Nominal height:

10.500 inches

Special Features:

To name: torsion fixture and test panel; 115vac 60hz 1phase 28vdc required

Functional Description:

Used to determine the spring constant of a torsion spring

Unpackaged Unit Weight:

40.000 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
