Overall Length:

32.000 inches

Overall Height:

12.000 inches

Overall Width:

19.000 inches

End Application:

C-5a age

Functional Classification:

Aa-5.1

Functional Description:

Assists in calibrating release mechanism assembly and establishes if same is operative within tolerances

Entry Date:

70-04-01

Reference Data And Literature:

Spec n0. Cp40274b, t.O. 33d2-42-2-1

General Description:

32.000 in. Lg, 19.000 in. W, 12.000 in. H

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
