**End Application:**

F-100-pw-100/200/220/220e breather pressurizing valves

**Specific Usage Design:**

Enables removal and installation of the carbon seal in the gearbox breather pressure valve

**Nominalheight:**

1.380 inches

**Nominaldiameter:**

2.250 inches

**Special Features:**

Sused withpwa50419, pwa50420.C/o a steel cup shaped base with a neoprene cushion within the cup. Removes the seal when used with pwa50420 drift and an arbor press. Installs seal when used with pwa 50419 drift and an arbor press

**Functional Description:**

Used to supply a counter force for removal and installation of a seal

**Unpackaged Unit Weight:**

10.000 pounds

**Reference Data And Literature:**

Serd no. 0407; to 6j15-14-17-3

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A505c0
