Special Features:

To name: pneumatic module test stand

Functional Description:

Provides pneumatic and electrical regulation, simulation, and indication of inputs and outputs required for test and calibration of central air data computers; used in conjunction with manometer set 272151-4

Reference Data And Literature:

To 33d3-36-5-1; navair 17-15cad-64

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T361-e
