Overall Length:

3.333 feet

Overall Height:

6.500 feet

Overall Width:

3.833 feet

Special Features:

To name: temperature well test stand; requires: 220vac, 3phase, 60hz; 90 to 125 compressed air supply; 30 to 40 psig water pressure supply

Functional Description:

Provides 2 temperature controlled oil baths covering -90 to -40degf and 300 to 400degf for testing compressor inlet temperature sensors; used in conjunction with 1c2822 cit sensor test stand

Reference Data And Literature:

To 33d4-6-220-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
