End Application:

F/15a acft

Nominallength:

12.060 inches

Nominaldiameter:

6.780 inches

Special Features:

Steel; company name-support, rotor

Functional Description:

Used to support/hold the generator rotor assembly during removal of oil spray rings

Unpackaged Unit Weight:

25.500 pounds

Reference Data And Literature:

Serd no. 2781

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A505c0
