End Application:

F/15a aircraft age.

Nominal length:

15.250 inches

Nominal width:

10.500 inches

Nominal height:

10.000 inches

Special Features:

Aluminum, stainless steel, and nylon; company name-balance fixture

Functional Description:

Used to balance the pitch and azimuth axes of the ins platform assembly

Unpackaged Unit Weight:

12.000 pounds

Reference Data And Literature:

Serd no. 2809

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
