End Application:

F-15 acft

Nominallength:

9.125 inches

Product Name:

Holding fixture

Nominalwidth:

8.875 inches

Nominalheight:

3.875 inches

Special Features:

Aluminum and stainless steel

Functional Description:

Used to support the imu platform assembly during performance of breakaway torque test

Unpackaged Unit Weight:

10.000 pounds

Reference Data And Literature:

To 1f-15a-4-6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A505c0
