Overall Length:

7.000 inches

Overall Height:

2.000 inches

Overall Width:

5.000 inches

Functional Classification:

Aa-12.11

Special Features:

To name: breakout fixture; interfaces the attitude-heading reference set displacement gyro azimuth gimball and directional gyro assemblies to facilitate conducting resistance/megohm measurements; aluminum

Reference Data And Literature:

To 33d-1-121

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A537k0
