End Application:

F-111 aircraft age

Special Features:

Qc/o dc power supply control-monitor panel; instrumentation panel; dc power system test panel; no. 1 test connector panel; power convenience panel; lru blower panel; test station blower; ac power input control-monitor panel; liquid qty indicating system panel; misc lru test panel; no. 2 test connector panel; storage bin; storage drawer; ffdgused to functionally test, troubleshoot, calibrate, and adjust the following lrus; 12a3409-821, -823, -869, -871, -873, -875, 12a3409m5-1, -3

Reference Data And Literature:

T.O. 33d2-27-36-1

Supplementary Features:

115.0 vac, 60.0 and 400.0 hz, three phase

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23800
